MERG related courses

If you know about any other relevant courses not listed here, in particular those in other areas, please add them.

Note that you do not have to be a MERG member to come on these courses.

These courses are organised by a group of MERG members for the benefit of other MERG members and railway modellers in general. Your booking is directly with the course organisers, not with MERG itself.

See the list of possible courses for 2023, and if you are interested in any course for 2023, please let us know.

Watch this space for when the next courses are scheduled, but note that we will **only** run courses in 2023 for which we have received sufficient expressions of interest.

POSSIBLE COURSE FOR 2028

We are looking to hold a 2-day weekend course at the CIM Business Centre, Cookham, Maidenhead SL6 9QH GB. The proposed dates would be either 13/14 or 20/21 May 2028.

The venue offers a number of residential and non-residential options. Detailed costings are available.

We would be looking to have 3 rooms available for 2 days giving us 6 one day courses or more if only half day courses were required.

We need to know:

```
1) What topic you would like to have a course on.
2) Would you be able to lead a topic, is so give details.
3) How far ahead would you be prepared to commit to a booking.
```

If you want any more information please contact Andy Cumming via exhibitions@merg.org.uk headed “Workshop Event 28”.

Updates will be made here as things progress.
