How do you meet?

The group normally meets on the first Saturday of every other month between 10am and 4pm in Yeovil, Somerset. Meetings include some or all of the following:

- A session on a group project
- A practical workshop

For the month in between there is a Zoom meeting held between 10am and 1pm on the first Saturday of the month.

Dates for meetings are held in the MERG meetings diary unless otherwise stated or see **When are the next Meetings?** below.

The meetings are normally held at St James Church, Preston Road, Yeovil. Anyone wishing to attend a meeting can get directions from the group via the contact form.

The group also meets two weeks later on a Friday every month between 11am and 12noon via Zoom This meeting is called a “Coffee Break” which as the name implies is a relaxed chat about all sorts of topics which could include your kit problem, your layout, the meeting etc.

Do you hold workshops?

“Yes we do, sometimes together with a meeting sometimes a separate event.”

- Members bring their own kits to assemble with help from others in the group where required
- Members bring their own built kit for where they have failed to get it working or need to share test equipment
- Any electronic circuit is welcome not just MERG kits
- Members work on the current group projects together
- Members interconnect working kits and add hardware to learn how kits can work together

What do you do at your coffee break meetings?

Members of the group meet online via Zoom software and share what they have been up to showing examples of kits they have built, railway related construction projects, ask questions where they had issues and generally help each other with advice and comments. There is a fair amount of chat and banter as members enjoy themselves in a light and friendly atmosphere.
